NAVICO GROUP

Your most trusted partner

Navico Group is the world's leading supplier of integrated systems and products to industries ranging from marine to recreational vehicles. We bring together the best brands, products and people to create groundbreaking innovations that reinvent the consumer experience. Our broad portfolio of the industry's leading brands in power management, digital control & monitoring, networked devices, and marine electronics are distributed globally to a diverse aftermarket and OEM customer base. Navico Group is driven, every day, to be the world's most trusted partner to the marine and mobile industries, and beyond.

What makes Lenco Marine different:

| Company Philosophy

Here at Lenco Marine, we have a passion that can't be taught – it's a commitment to producing quality products and providing excellent customer service that is shared by each and every member of the Lenco team. We work hard every day and are proud to deliver exciting, dependable, environmentally friendly products that will make your time on the water as enjoyable as it should be. Our dedication to quality and attention to detail give every member of the Lenco team the confidence to say, "We make the best boats better!"

| Customer Service

We pride ourselves on providing superior customer experiences. Our Warranty & Technical Support Team are here to handle all Customer requests directly through our factory. Troubleshooting help, part number assistance, warranty claim processing & much more are just a phone call away. We are also proud to announce, as of April 1st, 2019, we have extended our 3 year warranty coverage to 5 years for all standard trim tab applications.

| Product Selection

Lenco Marine is the true industry leader in the marine and boating world, manufacturing not only trim tabs but also electric actuators, hatch lifts, switches and the Auto Glide boat leveling system

| Worldwide Access to Product

A distribution network in multiple countries provides access to products when they are needed

| Information

24-hour access to product information, selection tools, and technical articles online at lencomarine.com

| Quality

Our consistent commitment to producing only the highest quality products has proven to be an essential ingredient for the continued growth of the company

Heavy-Duty Trim Tab Kits

The largest and strongest HD Trim Tab Series. Similar to our 10-gauge HD systems, this series was engineered using 7-gauge 1/4" thick stainless steel blades. While using a single actuator application, these systems perform best on larger vessels, including commercial applications, and go fast boats. Boat Lengths 24' (7.3 m) to 46' (14 m)

15162-103 Boat Length: 24' (7.3m) to 42' (12.8m)

15163-103 Boat Length: 28' (8.5m) to 46' (14m)

19

Heavy-Duty Trim Tab Kits

This Heavy Duty system is similar to our 7-gauge system, but with a wider trailing edge profile giving it a larger surface area when making trim adjustments. The sides and back edges of this blade are bent up at 90 degrees providing added strength to the blade. This HD system is engineered for boats that need strength along with extra lift from the wider trailing edge profile. Boat Lengths 23' (7.01m) to 50' (15.24 m)

15164-103 Boat Length: 23' (7.1m) to 45' (13.7m)

15165-103 Boat Length: 25' (7.6m) to 50' (15.24m)

ELECTRIC TRIM TAB KITS

Standard Mount Kits

10

Ideal for most common style boats from center console fishing boats to cuddy cabin cruisers. Boat lengths 14' (4.3 m) to 69' (21 m).

Edge Mount Kits

11

Designed for boat applications where a lower actuator mounting height is desirable.

Limited Space Kits

13

Engineered to fit behind ladders. This unique design gives you all the benefits of a standard tab in an ultra compact design.

Airboat Kits

13

The world's first Airboat specific design. The planing surface provides greater lift and less drag. Engineered to prevent the tab from digging in during hard turns resulting in a safer ride.

Lenco Electric Trim tabs

Trim tabs make the single most important difference in the way your boat rides and performs. They are optional on some boats but should be as standard as power trim and tilt. Lenco trim tabs make your boat ride smoother, drier, faster and with increased safety whether on a small skiff or a mega-yacht.

ELECTRIC TRIM TAB KITS

High Performance Kits

16

The Heavy Duty series is designed & built for the boats that need extra strength to support them in rougher water at higher speeds.

Super Strong Kits

17

This Super Strong design is for sport fishing, large cruising and commercial vessels.

Heavy Duty (HD) Kits

NEW

19

The Heavy Duty Kits are designed for the most extreme conditions. These systems come equipped with the new Heavy Duty Actuator.

Standard Mount Trim Tab Kits

12V System

The series that started the electric revolution! Our original Trim Tab design and still the most popular series we build. Ideal for most common style boats from center console fishing boats to cuddy cabin cruisers. Boat lengths 14' (4.3 m) to 69' (21 m)

15001-101

Blades are constructed of 12-gauge (2.7 mm) laser cut 304 stainless steel with a 5/8" (1.6 cm) flared trailing edge & 1/8" (3.2 mm) diameter hinge pin. Upper and lower high impact corrosion proof mounting brackets with mechanical cable gland seal.

SIZE DESCRIPTION

L = Length of tab
W = Width of hinge

Size description to be used with chart below.

Kits include:

- (2) 12-gauge stainless steel standard finish blades
- (2) 15054-001 actuators with 6' (1.8 m) leads and Deutsch connectors
- (2) 30133-103 actuator extension wiring harnesses - 20' (6.1 m) length
- (2) 15085-001 upper mounting brackets with gland seal
- (2) 50014-001 lower mounting brackets
- Lenco owner's/installation manual
- Stainless steel mounting hardware

Standard Mount

Electro-Polished Standard Mount Trim Tab Kits

12V System

All the same features of the Standard Mount series with the addition of Electro-Polished blades. Electro-Polish adds a mirror finish and the ultimate corrosion protection. Boat lengths 16' (4.9 m) to 30' (9.1 m)

15113-101

Blades are constructed of Electro-Polished 12-gauge (2.7 mm) laser cut 304 stainless steel with a 5/8" (1.6 cm) flared trailing edge & 1/8" (3.2 mm) diameter hinge pin. Upper and lower high impact corrosion proof mounting brackets with mechanical cable gland seal.

SIZE DESCRIPTION

L = Length of tab
W = Width of hinge

Size description to be used with chart below.

Kits include:

- (2) 12-gauge stainless steel Electro-Polished blades
- (2) 15054-001 actuators with 6' (1.8 m) leads and Deutsch connectors
- (2) 30133-103 actuator extension wiring harnesses - 20' (6.1 m) length
- (2) 15085-001 upper mounting brackets with gland seal

Edge Mount Trim Tab Kits

12V System

Designed for boat applications where a lower actuator mounting height is desirable. Actuator mounts at the trailing edge of the blade giving it a ½" (1.3 cm) lower mounting height on 9" (22.9 cm) long blades & 3" (7.6 cm) lower mounting height on 12" (30.5 cm) long blades. All edges are turned up for added strength and style. Boat lengths 14' (4.3 m) to 36' (11 m)

15016-101

Blades are constructed of 12-gauge (2.7 mm) laser cut 304 stainless steel with 1" (2.5 cm) turned up edges and a 5 degree taper on both sides to the trailing edge, & 1/8" (3.2 mm) diameter hinge pin. Upper and lower high impact corrosion proof mounting brackets with mechanical cable gland seal.

SIZE DESCRIPTION

Ⓛ = Length of tab
Ⓜ = Width of hinge

Size description to be used with chart below.

Kits include:

- (2) 12-gauge stainless steel standard finish blades

Complete Standard Trim Tab Kits

12V System

Everything you need in one box! The Standard trim tab kit with the added benefit of having the integrated switch choice & power connector all included. Boat lengths 16' (4.9 m) to 30' (9.1 m)

3 switches to choose from:

Blades are constructed of 12-gauge (2.7 mm) laser cut 304 stainless steel with a 5/8" (1.6 cm) flared trailing edge & 1/8" (3.2 mm) diameter hinge pin. Upper and lower high impact corrosion proof mounting brackets with mechanical cable gland seal. Switch included.

Kits include:

- (1) Switch Kit - Choose Double Rocker, Standard Integrated or LED Integrated
- (2) 12-gauge stainless steel standard finish blades
- (2) 15054-001 actuators with 6' (1.8 m) leads and Deutsch connectors
- (2) 30133-103 actuator extension wiring harnesses - 20' (6.1 m) length
- (2) 15085-001 upper mounting brackets with gland seal
- (2) 50014-001 lower mounting brackets
- Lenco owner's/installation manual
- Stainless steel mounting hardware

Complete Edge Mount Trim Tab Kits

12V System

Everything you need in one box! The Edge Mount trim tab kit with the added benefit of having the integrated switch choice & power connector all included. Boat lengths 17' (5.2 m) to 30' (9.1 m)

3 switches to choose from:

Blades are constructed of 12-gauge (2.7 mm) laser cut 304 stainless steel with a 1" (2.5 cm) turned up edges and a 5 degree taper on both sides to the trailing edge & 1/8" (3.2 mm) diameter hinge pin. Upper and lower high impact corrosion proof mounting brackets with mechanical cable gland seal. Switch included.

Kits include:

- (1) Switch Kit - Choose Double Rocker, Standard Integrated or LED Integrated
- (2) 12-gauge stainless steel standard finish blades
- (2) 15054-001 actuators with 6' (1.8 m) leads and Deutsch connectors
- (2) 30133-103 actuator extension wiring harnesses - 20' (6.1 m) length

Airboat Trim Tab Kit

12V System

The world's first Airboat specific design. The planing surface provides greater lift and less drag. Engineered to prevent the tab from digging in during hard turns resulting in a safer ride

Blade is constructed of 12-gauge (2.7 mm) laser cut 304 stainless steel with a welded on stainless steel adjustable lower actuator mounting bracket & 1/8" (3.2 mm) diameter hinge pin. High impact corrosion proof upper mounting bracket with mechanical cable gland seal.

Kit includes:

- (1) 12-gauge stainless steel standard finish blade with 2" (5.1 cm) hinge height
- (1) actuator with 6' (1.8 m) lead and Deutsch connector
- (1) 30133-002 actuator extension wiring harness - 14' (4.3 m) length
- (1) 15085-001 upper mounting bracket with gland seal
- Lower mounting bracket included
- Lenco owner's/installation manual
- Stainless steel mounting hardware

Part #	Description
15095-001	Airboat Trim Tab Switch

Standard Performance Trim Tab Kits

12V System

Our first series designed specifically for performance. This system comes equipped with a thicker reinforced hinge and complimented with an Electro-Polished finish for added quality and protection.

Boat lengths 13' (4 m) to 40' (12.2 m)

15037-101
Electro-Polished

Blades are constructed of Electro-Polished 12-gauge (2.7 mm) laser cut 304 stainless steel with 1" (2.5 cm) turned up edges and a 5 degree taper on the inside, heavy duty hinge with 1/4" (6.4 mm) diameter hinge pin.

SIZE DESCRIPTION

Heavy Duty (HD) Performance Trim Tab Kits

12V System

The Heavy Duty series is designed & built for the boats that need extra strength to support them in rougher water at higher speeds.

Boat lengths 18' (5.5 m) to 42' (12.8 m)

15043-101
Electro-Polished

Blades are constructed of Electro-Polished 12-gauge (2.7 mm) laser cut 304 stainless steel with 1" (2.5 cm) turned up edges and a 5 degree taper on the inside, heavy duty hinge with 1/4" (6.4 mm) diameter hinge pin. Full transom back plate with welded on stainless steel upper & adjustable lower actuator mounting brackets, 5/16" (.8 cm) stainless steel mounting bolts & mechanical strain-relief cable seals. 3.75" (9.5 cm) sacrificial anodes installed.

SIZE DESCRIPTION

L = Length of tab

W = Width of hinge

Size description to be used with chart below.

Kits include:

- (2) 12-gauge stainless steel Electro-Polished blades
- (2) 15055-001 XD Extreme Duty actuators with 6' (1.8 m) leads & Deutsch connectors
- (2) 30133-103 actuator extension wiring harnesses - 20' (6.1 m) length
- Lenco owner's/installation manual

15044-101	18" x 14"	22'-42'	10.5" (26.7 cm)

Switch kits sold separately

See pages 30-32

Extreme Duty (XD) Performance Trim Tab Kit 12V System / Single Actuator

The only single actuator Extreme Duty design offered. This kit is similar to our Heavy Duty Performance series with a thicker, stronger blade for those boaters who run hard in extreme conditions. Boat lengths 20' (6.1 m) to 40' (12.2 m)

15045-101
Electro-Polished

Blades are constructed of Electro-Polished 10-gauge (3.4 mm) laser cut 304 stainless steel with 1" (2.5 cm) turned up edges and a 5 degree taper on the inside, heavy duty hinge with 3/8" (9.5 mm) diameter hinge pin. Full transom back plate with mechanical strain-relief cable seals, welded on stainless steel upper & adjustable lower actuator mounting brackets, 3/8" (9.5 mm) stainless steel mounting bolts. 3.75" (9.5 cm) sacrificial anodes installed.

SIZE DESCRIPTION

Ⓛ = Length of tab
Ⓜ = Width of hinge

Size description to be used with chart below.

Kit includes:

- (2) 10-gauge stainless steel Electro-Polished blades
- (2) 15056-001 XD Extreme Duty actuators with 6' (1.8 m) leads & Deutsch connectors
- Lenco owner's/installation manual
- **Note: Boat-mounting hardware to be supplied by the customer**
- **Note: Actuator extension harnesses not in kits, must be purchased separately (2 required) See page 42**

Back Plate Dimensions

The actuator leads pass through the water-tight mechanical strain-relief cable seal and the back plate before passing through the transom. This applies to all products with back plates.

TECH TIP

What is Electro-Polishing?

Electro-Polishing is a process that improves the surface finish of our 304 stainless steel trim tab blades. Electro-Polishing delivers a smoother, more reflective surface than our standard mill finish and improves surface cleanability. Electro-Polishing dissolves free iron, inclusions, and embedded particles from the surface of our trim tabs. Lenco's in-house process improves the near-surface chemistry of the material, and promotes the formation of an improved corrosion resistant surface layer.

The raw form of all stainless steel has a mixture of unwanted surface contaminants such as iron and much needed elements such as chromium & nickel.

An electrical charge is added in order to remove unwanted surface contaminants and concentrate the chromium & nickel at the surface.

What is left is a stainless steel that has become much more impervious to the environment with an aesthetically pleasing "BLING" appeal.

Benefits of electro-polishing

- Removes iron and potential contaminants from the surface of our trim tabs.
- Removes a small amount of material from the surface of our trim tab blades, also removing small burrs.
- Enhances the chromium and nickel content providing added resistance against environmental factors such as air, fresh and salt water.
- Polishes areas inaccessible by any other polishing methods.
- Provides a clean and smooth surface that is aesthetically pleasing.

High Performance (HP) Trim Tab Kits
12V System / Single Actuator

This powerful, unique series is designed for multiple engine applications with limited transom space. The contoured blade design allows for extra space for engines to turn as well as decreasing and preventing cavitation to the props. Boat lengths 16' (4.9 m) to 40' (12.2 m)

15049-101
Electro-Polished

Blades are constructed of Electro-Polished 7-gauge (4.6 mm) laser cut 304 stainless steel with heavy duty hinge with 3/8" (9.5 mm) diameter hinge pin. Full transom back plate with mechanical strain-relief cable seals, welded on stainless steel upper & adjustable lower actuator mounting brackets, 3/8" (9.5 mm) stainless steel mounting bolts. 3.75" (9.5 cm) sacrificial anodes installed.

Hybrid Trim Tab Kits

12V & 24V Systems/ Single Actuator

Engineered to combine the benefits and features of our Limited Space and Super Strong series. This ultra-compact design utilizes a greater deflection angle creating substantial lift with less surface area.

Boat lengths 30' (9.1 m) to 60' (18.3 m)

15146-101

Blades constructed of 7-gauge (4.6 mm) laser cut 304 stainless steel with 3/8" (9.5 mm) diameter hinge pin. High impact corrosion proof upper and lower mounting brackets with mechanical gland cable seal, 5/16" (.8 cm) upper and lower stainless steel mounting bolts. Also includes (2) 3.75" (9.5 cm) sacrificial anodes installed.

Kits include:

- (2) 7-gauge stainless steel blades with standard finish
- (2) Standard actuators with 6' (1.8 m) lead and Deutsch connectors
- (2) 15085-001 upper mounting brackets with gland seal
- (2) 50014-001 lower mounting brackets
- Lenco owner's/installation manual
- Stainless steel mounting hardware

Super Strong Trim Tab Kits

12V & 24V Systems/ Single Actuator

This Super Strong design is for sport fishing, large cruising and commercial vessels. This series has a completely flat blade design which reduces spray giving you a clean, dry ride. Boat lengths 24' (7.3 m) to 52' (15.8 m)

15018-101

Blades are constructed of 7-gauge (4.6 mm) laser cut 304 stainless steel with 3/8" (9.5 mm) diameter hinge pin. High impact corrosion proof upper and lower mounting brackets with mechanical gland cable seal, 5/16" (.8 cm) upper and 3/8" (9.5 mm) lower stainless steel mounting bolts. 3.75" (9.5 cm) sacrificial anodes installed.

Heavy Duty Trim Tab Kit **NEW**

12V System

The largest and strongest HD Trim Tab Series. Similar to our 10-gauge HD systems, this series was engineered using 7-gauge 1/4" thick stainless steel blades. While using a single actuator application, these systems perform best on larger vessels, including commercial applications, and go fast boats. Boat Lengths 24' (7.3 m) to 46' (14m)

15162-103
Electro-Polished

Blades are constructed of Electro-Polished 7-gauge (4.6 mm) laser cut 304 stainless steel, heavy duty hinge with 3/8" (9.5 mm) diameter hinge pin. Full transom back plate with remote gland-seal, welded on stainless steel upper and a single adjustable lower C-channel bracket. 3/8" (9.5 mm) stainless steel mounting bolts. 3.75" (9.5 cm) sacrificial anodes installed.

Kits include:

- (1) Key Pad Assembly Indicator 30343-001
- (1) Switch Control Box Indicator 30368-001
- (2) 7-gauge stainless steel Electro-Polished blades
- (2) Heavy Duty Actuators 15158-001
- (1) Lenco owner's/installation manual
- **Note: Boat-mounting hardware to be supplied by customer**
- **Note: Actuator extension harnesses not in kits, must be purchased separately (2) required See page 42**

15163-103	25" x 14"	28' - 46'	10.5" (26.7 cm)

Two Piece indicator switch included with kit

Heavy Duty Trim Tab Kit **NEW**

12V System

This Heavy Duty system is similar to our 7-gauge system, but with a wider trailing edge profile giving it a larger surface area when making trim adjustments. The sides and back edges of this blade are bent up at 90 degrees providing added strength to the blade. This HD system is engineered for boats that need strength along with extra lift from the wider trailing edge profile. Boat lengths 23' (7.01m) to 50' (15.24m)

15165-103
Electro-Polished

Blades are constructed of Electro-Polished 10-gauge (3.4 mm) laser cut 304 stainless steel with 1" (2.5 cm) turned up edges and a 5 degree taper on the inside, heavy duty hinge with 3/8" (9.5 mm) diameter hinge pin. Full transom back plate with remote gland-seal, welded on stainless steel adjustable C-channel with 3/8" (9.5 mm) stainless steel mounting hardware and a 3.75" (9.5 cm) sacrificial anodes installed

Kits include:

- (1) Key Pad Assembly Indicator 3034-001
- (1) Control Box Assembly Indicator 30368-001
- (2) 10-gauge stainless steel electro-polished blades
- (2) 15158-001 Heavy Duty actuators with 6' (1.8 m) leads & Deutsch connectors
- (1) Lenco owner's/installation manual

LENCO TRIM TAB SELECTION GUIDE

3 EASY STEPS TO FIND YOUR TRIM TAB SYSTEM KIT

step 1

Choose the appropriate minimum transom height of your motor boat.

step 2

Choose the appropriate overall length of your motor boat.

step 3

Choose your desired trim tab L" x W" from the available choices.

All boat configurations are different. Using this selection guide, choose the largest trim tab that fits your particular boat. For additional information visit lencomarine.com

 Minimum Transom Height Required	 Overall Boat Length	 L"xW" Trim Tab Dimensions	Part #
14"	14'-18'	 9" x 9" Standard Mount	15000-101
	19'-24'	 9" x 12" Standard Mount	15001-101
	25'-30'	 12" x 12" Standard Mount	15007-101
13.5"	14'-17'	 9" x 9" Edge Mount	15013-101
	18'-25'	 9" x 12" Edge Mount	15014-101
11"	14'-18'	 12" x 9" Edge Mount	15015-101
	19'-30'	 12" x 12" Edge Mount	15016-101

Auto Glide control box accessories make installation simple, even in difficult mounting locations.

Auto Glide™ Boat Leveling System

The Lenco Auto Glide helps take your mind off of balancing your boat and back to enjoying your time on the water. Your budget will be balanced as well with the world's best fuel efficiency features. Balance your time, your boat and your budget with the Lenco Auto Glide Boat Leveling System.

Fuel efficiency at its best

Auto Glide uses data it receives 25 times a second to monitor changes in the GPS speed and engine RPM to automatically put your boat in its most fuel efficient cruising position.

"All of the system adjustments achieve two very important objectives. One of course is fuel economy but the more important one to us is a more stable and comfortable ride particularly in rough seas."

Bill Hayward

Bill Hayward
Cruisers Yacht 48'

Fuel saving results are based on Cruisers Yachts 48 Cantius with a Volvo D6, 600 IPS, EVC, 435 horsepower engine. Results may vary depending on boat type & engine configuration.

Enhance boat performance with Auto Glide

Auto Glide improves the performance of the boat, and optimizes the ride in any conditions. Some of the benefits of Auto Glide are:

- Automatic pitch and roll corrections.
- Automatically trims boat to the most fuel efficient position.
- Takes the trim tab operation out of the hands of the operator while allowing for manual override at the touch of a button.
- Reduces time to plane.
- Does not adjust during turns, allowing boat to roll naturally.
- Safety - Minimizes bow rise and improves boat's hole shot performance.
- Built-in automatic trim tab retraction.
- Waterproof key pad and control box.
- Three custom settings: "Hold" mode and (2) "Favorite" modes.
- Increase in fuel savings.
- Can be installed on any boat with Lenco electric actuators.
- Fast and easy installation.

Hands Free Trim Tab Control for the Best Ride on the Water

Auto Glide is the most advanced automatic trim tab control system ever developed for the marine industry. First introduced in 2009 by Lenco Marine, Auto Glide has the sophisticated features to optimize the performance of your boat.

What is Auto Glide

Auto Glide is an automatic boat leveling system that uses sophisticated accelerometers, gyroscopes, and advanced software to optimize the performance of the vessel. Auto Glide keeps the boat level at all times regardless of cruising speeds. It has the ability to utilize GPS data and engine data to make the vessel run at the most efficient running angle. The proper use of trim tabs makes a tremendous difference in boat performance. We have developed Auto Glide to maximize the benefits of trim tabs while simplifying operation and control. Auto Glide is constantly working to make your boat the best it can be - offering a softer, smoother and more comfortable ride.

Intuitive design and control

Auto Glide operation is simple and intuitive. The integrated keypad provides automatic or manual control of the trim tabs. Favorite settings can be programmed and saved based on user preference. Auto Glide can connect to the NMEA 2000 network, so trim tab position can be displayed on a NMEA 2000 multi-function screen. In addition, Auto Glide has built in diagnostics. In the event of a system issue, the keypad LED lights will flash indicating an error code.

Auto Glide Adapter Cables

Image	Part #	Description
	30246-001D	ADAPTER CABLE FOR SMARTCRAFT / MERCURY - 2.5' (76.2 cm)
	30252-001D	ADAPTER CABLE FOR COMMAND LINK / YAMAHA - 2.5' (76.2 cm)
	30277-001D	ADAPTER CABLE FOR J1939 - 2.5' (76.2 cm)
	30259-001D	CAN bus # 1 NMEA 2000 CABLE - 2.5' (76.2 cm)
	30257-001D	CAN bus # 2 GPS / NMEA 2000 GPS ADAPTER - 2.5' (76.2 cm) Use when connecting to NMEA 2000 GPS Antenna / Receiver.

30260 Series Extension Cables for Engine Adapter Cable, CAN 1 & CAN 2 are terminated with 4 pin male to 4 pin female Deutsch connectors

	30260-001D	5' (1.5 m) Extension Cable - Deutsch connectors
	30260-002D	10' (3 m) Extension Cable - Deutsch connectors
	30260-003	20' (6.1 m) Extension Cable - Deutsch connectors
	30260-004	30' (9.1 m) Extension Cable - Deutsch connectors
	30260-005	40' (12.2 m) Extension Cable - Deutsch connectors
	30260-006	50' (15.2 m) Extension Cable - Deutsch connectors
	30262-001D	CAN bus # 2 GPS / NMEA 2000 NETWORK ADAPTER CABLE ASSEMBLY - 2.5' Use when connecting to NMEA 2000 Network (For longer lengths, use GPS vendor's extension or # 30269-001D.)

Auto Glide NMEA 2000 Network Accessories

Image	Part #	Description
	11201-001	NMEA 2000 NETWORK KIT Contents: (1) Power Cable, (5) Tee Connectors and (1) Male / (1) Female Resistor
	30267-001D	TEE CONNECTOR ONLY
	30268-001D	Female TERMINATING RESISTOR 120 ohm
	30268-002D	Male TERMINATING RESISTOR 120 ohm
	30281-001D	POWER CABLE NMEA 2000 NETWORK - 2.5' (76.2 cm)

Auto Glide 2nd Station Kits

Image	Part #	Description
All (5) Kits seen here include key pad, splitter connector and extension cable		
	11202-001	10' (3 m) Extension Cable
	11202-002	20' (6.1 m) Extension Cable
	11202-003	30' (9.1 m) Extension Cable
	11202-004	40' (12.2 m) Extension Cable
	11202-005	50' (15.2 m) Extension Cable
	30254-002D	Replacement 2ND STATION KEY PAD ONLY (must only be used at the 2nd station helm)

Auto Glide GPS & Accessories

Image	Part #	Description
	11103-001	NMEA 2000 (16 CH) GPS ANTENNA / RECEIVER KIT Contents: (1) GPS Antenna, (1) Tee Connector and (1) Female Resistor
	30266-001	NMEA 2000 (16 CH) GPS ANTENNA ONLY
	15503-101	15' (4.6 m) GPS ANTENNA EXTENSION KIT Contents: (1) 15' (4.6 m) Extension Cable, (1) Tee Connector and (1) Female Resistor
	30269-003D	2' (60.9 cm) EXT. CABLE FOR CAN bus 2 (Network System) NMEA Female to NMEA Male
	30269-002D	6' (1.8 m) EXT. CABLE FOR CAN bus # 2
	30269-001D	15' (4.6 m) EXT. CABLE FOR CAN bus # 2
	30258-001D	CAN bus SPLITTER CONNECTOR HUB - 6" (15.2 cm)
	70567-001	GPS ANTENNA / RECEIVER MOUNTING BRACKET Stainless Steel with mounting screws

Auto Glide Control Box Accessories

Image	Part #	Description
	30140-001D	36" (91.4 cm) Power Pigtail for Single Actuator Systems
	30140-202D	72" (182 cm) Power Pigtail for Single Actuator Systems
	10249-001	72" (182 cm) Power Pigtail for Dual Actuator Systems
	70568-001	Auto Glide Control Box Mounting Bracket Stainless Steel with mounting screws

SWITCH & FLYBRIDGE KITS & ACCESSORIES

Standard Integrated Kit

30

Complete your Lenco single actuator trim tab system with the latest, maintenance-free, Standard (ALL-IN-ONE) integrated tactile switch kit design.

LED Integrated Switch Kit

30

Complete your Lenco single actuator trim tab system with the latest, maintenance-free, LED Indicator (ALL-IN-ONE) integrated tactile switch kit design.

LED (TWO-PIECE) Switch Kit

31

This LED tactile switch kit for single actuator systems has a shortened bezel for consoles which require less depth to mount.

LENCO SWITCH KITS

Lenco's tactile switches are the most innovative trim tab switches on the market today. Lenco is now introducing 4 of it's most inovative switch kits to date. Lenco switches provide instant response at the touch of a button allowing customers to position and balance their boat with ease.

SWITCH & FLYBRIDGE KITS & ACCESSORIES

Rocker Switch Kit

32

Double Rocker Switch available for Standard Trim Tabs, Standard & HD Performance Tabs (single actuator versions). Does not have our Retractor feature. Includes Deutsch connectors, 36" power pigtail and mounting hardware.

Airboat Switch

32

Single Rocker Switch with Deutsch connector and two 30" (76.2 cm) non-terminated power leads.

Hatch Lift Switch

33

Single Rocker Switch for hatch lifts with two 30" non-terminated power leads.

Flybridge Switch Kits

34

Second station Standard Key Pad connecting to the (ALL-IN-ONE) Integrated Tactile Switch Kit (Part # 15169-001). Add a second station key pad to your Integrated Tactile Switch by plugging into the existing harness.

Standard Integrated Switch Kit

12 & 24 Volt | Single Actuator Systems

Complete your Lenco single actuator trim tab system with the latest, maintenance-free, Standard (ALL-IN-ONE) integrated tactile switch kit design. This switch technology improves accuracy and integrates the control box functionality into the key pad bezel.

15169-001
Single Actuator

Features

- Simple, quick, Plug & Play installation
- Instant response
- Built-in retractor
- Low profile key pad design
- Self-contained key pad with waterproof Plug & Play Deutsch connectors
- Wiring harness length 30" (76.2 cm) from the back of the switch bezel
- 36" power pigtail
- 2-1/16" hole cut-out size, overall key pad size of 2.75" x 2.75"
- 4.08" clearance required from the back of the key pad's mounting location
- 5-year warranty

Part #	Description
15169-001	Standard Integrated Switch Kit with 36" (91.4 cm) Power Pigtail for Single Actuator Systems

Replacement Parts

30140-001D 36" Power Pigtail (See page 43)

ATTENTION: REPLACEMENT KEY PADS & CONTROL BOXES FOR 2016 AND PRIOR SWITCHES ARE NOT COMPATIBLE WITH THIS SWITCH KIT.

Retail Box

LED Integrated Switch Single Kit

12 & 24 Volt | Single Actuator Systems

Complete your Lenco single actuator trim tab system with the latest, maintenance-free, LED Indicator (ALL-IN-ONE) integrated tactile switch kit design. This switch technology improves accuracy and integrates the control box functionality into the key pad bezel.

15170-001
Single Actuator

Features

- Simple, quick, Plug & Play installation
- Instant response
- Built-in retractor
- Low profile key pad design
- Self-contained key pad with waterproof Plug & Play Deutsch connectors
- Wiring harness length 30" (76.2 cm) from the back of the switch bezel
- 36" power pigtail
- 2-1/16" hole cut-out size, overall key pad size of 2.75" x 2.75"
- 4.08" clearance required from the back of the key pad's mounting location
- Two high-intensity LED Indicator displays show the exact position of your trim tabs at all times
- Photo Eye for optimum viewing in all light conditions
- Backlit key pad for optimum viewing at night
- Self-Check feature
- 5-year warranty

Part #	Description
15170-001	LED Integrated Switch Kit with 36" (91.4 cm) Power Pigtail for Single Actuator Systems

Replacement Parts

30140-001D 36" Power Pigtail (See page 43)

ATTENTION: REPLACEMENT KEY PADS & CONTROL BOXES FOR 2016 AND PRIOR SWITCHES ARE NOT COMPATIBLE WITH THIS SWITCH KIT.

LED Integrated Switch Dual Kit

12 & 24 Volt | Dual Actuator Systems

Complete your Lenco dual actuator trim tab system with the latest, maintenance-free, LED Indicator (ALL-IN-ONE) integrated tactile switch kit design. This switch technology improves accuracy and integrates the control box functionality into the key pad bezel.

15171-001
Dual Actuator

Features

- Simple, quick, Plug & Play installation
- Instant response
- Built-in retractor
- Low profile key pad design
- Self-contained key pad with waterproof Plug & Play Deutsch connectors
- Wiring harness length 30" (76.2 cm) from the back of the switch bezel
- 72" power pigtail
- 2-1/16" hole cut-out size, overall key pad size of 2.75" x 2.75"
- 4.08" clearance required from the back of the key pad's mounting location
- Two high-intensity LED Indicator displays show the exact position of your trim tabs at all times
- Photo Eye for optimum viewing in all light conditions
- Backlit key pad for optimum viewing at night
- 5-year warranty

Part #	Description
15171-001	LED Integrated Switch Kit with 72" (1.8 m) Power Pigtail for Dual Actuator Systems

Replacement Parts

30140-202D 72" Power Pigtail (See page 43)

ATTENTION: REPLACEMENT KEY PADS & CONTROL BOXES FOR 2016 AND PRIOR SWITCHES ARE NOT COMPATIBLE WITH THIS SWITCH KIT.

LED Indicator (TWO-PIECE) Single Kit

12 & 24 Volt | Single Actuator Systems

This LED tactile switch kit for single actuator systems has a shortened bezel for consoles which require less depth to mount. Functionality is built into the separate control box and must be mounted in a remote location.

15270-001
Single Actuator

Features

- Simple, quick, Plug & Play installation
- Instant response
- Built-in retractor
- Low profile key pad design
- Self-contained, solid state control box with waterproof Plug & Play Deutsch connectors
- 36" power pigtail for control box
- 2-1/16" hole cut-out size, overall key pad size of 2.75" x 2.75"
- 2.33" clearance required from the back of the key pad's mounting location
- Two high-intensity LED Indicator displays show the exact position of your trim tabs at all times
- Photo Eye for optimum viewing in all light conditions
- Backlit key pad for optimum viewing at night
- Self-Check feature
- 5-year warranty

Part #	Description
15270-001	LED Indicator (TWO-PIECE) Switch Kit with 36" (91.4 cm) Power Pigtail for Single Actuator Systems

Replacement Parts	
30343-001	LED (TWO-PIECE) Key pad only
30340-001	(TWO-PIECE) Control box - Single
30140-001D	36" Power Pigtail (See page 43)

ATTENTION: REPLACEMENT KEY PADS & CONTROL BOXES FOR 2016 AND PRIOR SWITCHES ARE NOT COMPATIBLE WITH THIS SWITCH KIT.

LED Indicator (TWO-PIECE) Dual Kit

12 & 24 Volt | Dual Actuator Systems

This LED tactile switch kit for dual actuator systems has a shortened bezel for consoles which require less depth to mount. Functionality is built into the separate control box and must be mounted in a remote location.

15271-001
Dual Actuator

Features

- Simple, quick, Plug & Play installation
- Instant response
- Built-in retractor
- Low profile key pad design
- Self-contained, solid state control box with waterproof Plug & Play Deutsch connectors
- 72" power pigtail for control box
- 2-1/16" hole cut-out size, overall key pad size of 2.75" x 2.75"
- 2.33" clearance required from the back of the key pad's mounting location
- Two high-intensity LED Indicator displays show the exact position of your trim tabs at all times
- Photo Eye for optimum viewing in all light conditions
- Backlit key pad for optimum viewing at night
- 5-year warranty

Part #	Description
15271-001	LED Indicator (TWO-PIECE) Switch Kit with 72" (1.8 m) Power Pigtail for Dual Actuator Systems

Replacement Parts	
30343-001	LED (TWO-PIECE) Key pad only
30342-001	(TWO-PIECE) Control box - Dual
30140-202D	72" Power Pigtail (See page 43)

ATTENTION: REPLACEMENT KEY PADS & CONTROL BOXES FOR 2016 AND PRIOR SWITCHES ARE NOT COMPATIBLE WITH THIS SWITCH KIT.

Double Rocker Switch Kit Single

12 & 24 Volt | Single Actuator Systems

Double Rocker Switch available for Standard Trim Tabs, Standard & HD Performance Tabs (single actuator versions). Does not have our Retractor feature. Includes Deutsch connectors, 36" power pigtail and mounting hardware. Overall key pad size is 2.75" x 2.75". Key pad hole cut-out size is 2.25".

10222-211D
Single Actuator with Pigtail

Kit Includes:

- #122 Carling Double Rocker Switch
- Plug & Play Deutsch Connectors
- 36" Power Pigtail.
- Installation hardware included
- Clam shell packaged

Part #	Description
10222-211D	Standard Integrated Switch Kit with 36" (91.4 cm) Power Pigtail for Single Actuator Systems

Replacement Parts

30140-001D 36" Power Pigtail (See page 43)

Double Rocker Switch Kit Dual

12 & 24 Volt | Dual Actuator Systems

Double Rocker Switch available for all dual actuator trim tab systems. Without Retractor feature. Overall key pad size is 2.75" x 2.75". Key pad hole cut-out size is 2.25".

10221-211D
Dual Actuator with Pigtail

Kit Includes:

- #122 Carling Double Rocker Switch
- Plug & Play Deutsch Connectors
- 72" Power Pigtail and mounting hardware
- Installation hardware included
- Clam shell packaged

Part #	Description
10221-211D	Double Rocker Switch Kit with 72" (1.8 m) Power Pigtail for Dual Actuator Systems

Replacement Parts

30140-202D 72" Power Pigtail (See page 43)

Airboat Trim Tab Rocker Switch

12 & 24 Volt | Single Actuator Systems

Single Rocker Switch with Deutsch Connector and two 30" (76.2 cm) non-terminated power leads. Recommended for use with 15112-101 Airboat Trim Tab Kit.

15095-001
Single Actuator

Kit Includes:

- Single Rocker Switch
- Plug & Play Deutsch Connector
- 30" non-terminated power leads
- Installation hardware included
- Clam shell packaged

Part #	Description
15095-001	Airboat Trim Tab Rocker Switch 12 & 24 Volt for Single Actuator Systems

Hatch Lift Rocker Switch (Single)

12 & 24 Volt | Single Hatch Lift Application

Single Rocker Switch for hatch lifts with two 30" non-terminated power leads. This switch is CE certified and ABYC compliant. It is also 20A rated and clam shell packaged.

15096-001
Single Hatch Lift

Hatch Lift Rocker Switch (Dual)

12 & 24 Volt | Dual Hatch Lift Application

Single Rocker Switch for hatch lifts with two 30" non-terminated power leads. This switch is CE certified and ABYC compliant. It is also 20A rated and clam shell packaged.

15098-001
Dual Hatch Lift

Kit Includes:

- Single Rocker Switch
- Plug & Play Deutsch Connector
- 30" non-terminated power leads
- Installation hardware included
- Clam shell packaged

Part #	Description
15096-001	Hatch Lift Rocker Switch (Single) 12 & 24 Volt for Single Hatch Lift Application

Kit Includes:

- Single Rocker Switch
- Plug & Play Deutsch Connector
- 30" non-terminated power leads
- Installation hardware included
- Clam shell packaged

Part #	Description
15098-001	Hatch Lift Rocker Switch (Dual) 12 & 24 Volt for Dual Hatch Lift Application

Flybridge Standard Kits For the Standard Integrated Tactile Switch Kit

12 & 24 Volt | Single Actuator Systems

Second station Standard Key Pad connecting to the (ALL-IN-ONE) Integrated Tactile Switch Kit (Part # 15169-001). Add a second station key pad to your Integrated Tactile Switch by plugging into the existing harness.

Flybridge LED Indicator Kits For the LED Indicator Integrated Tactile Switch Kit

12 & 24 Volt | Single and Dual Actuator Systems

Second station LED Key Pad connecting to the (ALL-IN-ONE) Integrated Tactile Switch Kit (Part # 15170-001). Add a second station key pad to your Integrated Tactile Switch by plugging into the existing harness.

Flybridge LED Indicator Kits For the LED Indicator (TWO-PIECE) Tactile Switch Kit

12 & 24 Volt | Single and Dual Actuator Systems

Second station LED Key Pad connecting to the (TWO-PIECE) Tactile Switch Kit (Part # 15270-001 and/or 15271-001). Add this second station key pad to your (TWO-PIECE) Tactile Switch by plugging into the Y Connector harness.

Kits Include:

- Flybridge Standard Key Pad
- Shielded Harness 30097-xxx series

Kits Include:

- Flybridge LED Key Pad
- Shielded Harness 30097-xxx series

Kits Include:

- Flybridge LED Key Pad
- Shielded Harness 30097-xxx series
- Y Connector (See page 43)

Part #	Key Pad	Shielded Harness
11841-101	Standard	10' (3 m)
11841-102	Standard	20' (6.1 m)
11841-103	Standard	30' (9.1 m)
11841-104	Standard	40' (12.2 m)
11841-105	Standard	50' (15.2 m)

Part #	Key Pad	Shielded Harness
11841-001	LED	10' (3 m)
11841-002	LED	20' (6.1 m)
11841-003	LED	30' (9.1 m)
11841-004	LED	40' (12.2 m)
11841-005	LED	50' (15.2 m)

Part #	Key Pad	Shielded Harness
11941-001	LED	10' (3 m)
11941-002	LED	20' (6.1 m)
11941-003	LED	30' (9.1 m)
11941-004	LED	40' (12.2 m)
11941-005	LED	50' (15.2 m)

Replacement Parts

30326-001 Second station key pad only

See page 43 for replacement Flybridge Harnesses.

Replacement Parts

30325-001 Second station key pad only

See page 43 for replacement Flybridge Harnesses.

Replacement Parts

30325-001 Second station key pad only

30209-001 Y Connector (See page 43)

See page 43 for replacement Flybridge Harnesses.

Flybridge Kit Standard or LED Key Pad connecting to the (ALL-IN-ONE) Integrated Tactile Switch Kit Wiring Diagram - see chart below for part numbers

Flybridge Kit LED Key Pad connecting to the (TWO-PIECE) Tactile Switch Kit Wiring Diagram - see chart below for part numbers

Flybridge Kit Standard or LED Key Pad Key pad and bezel dimensions and installation instructions

Align the center bit of a 2 1/16" (5.24 cm) hole saw with the cross hairs in the center of the desired mounting area and drill straight down through the console, providing additional clearance for switch and electrical connection. Insert the switch into the console cutout hole then hand-tighten the Bezel Locknut clockwise onto the backside of the key pad.

LENCO TRIM TAB ACTUATOR GUIDE

2 EASY STEPS TO FIND YOUR REPLACEMENT ACTUATOR

step 1

Follow this branding code digit to the chart below to identify the actuator type.

step 2

Follow this branding code digit to identify the hole size(s) for mounting.

Location of the imprinted actuator branding code

5 DIGIT

Actuators

101 Standard Actuator

2-1/4" Stroke (5.715 cm)

The 101 Actuator is used in all Standard, Edge Mount and Standard Performance kits. 2-1/4" stroke - Overall length tip to tip = 12-1/2"

15054-001

12V, 5/16" mounting hardware with 6' cable

15061-001

24V, 5/16" mounting hardware

101 XD Actuator

2-1/4" Stroke (5.715 cm)

The 101XD Actuator is used mostly with HD, XD, High Performance & Super Strong tabs. 2-1/4" stroke Overall length tip to tip = 11-3/8"

15055-001

12V, 5/16" mounting hardware with 6' cable

15062-001

24V, 5/16" mounting hardware with 6' cable

15056-001

12V, 3/8" mounting hardware with 6' cable

15063-001

24V, 3/8" mounting hardware with 6' cable

15056-002

12V, 5/16" upper & 3/8" lower mounting hardware with 6' cable

15063-002

24V, 5/16" upper & 3/8" lower mounting hardware with 6' cable

101 XDS (Short) Actuator

2-1/4" Stroke (5.715 cm)

The 101XDS Actuator is used with OEM specific kits & limited space applications; it is the shortest actuator we manufacture. 2-1/4" stroke. Overall length tip to tip = 10-7/8"

15057-001

12V, 5/16" mounting hardware with 6' cable

15058-001

12V, 3/8" mounting hardware with 6' cable

102 Actuator

4-1/4" Stroke (10.795 cm)

The 102 Actuator is used with Trolling Tab systems sold prior to 2000 and OEM applications. 4-1/4" stroke. Overall length tip to tip = 14"

15059-001

12V, 5/16" mounting hardware with 6' cable

15066-001

24V, 5/16" mounting hardware with 6' cable

102 HD/XD Actuator

4-1/4" Stroke (10.795 cm)

The 102 HD Actuator is used with Trolling Tab systems sold after 2000 and OEM applications. 4-1/4" stroke. Overall length tip to tip = 13"

15060-001 (102 HD)

12V, 5/16" mounting hardware with 6' cable (Shown above)

15131-001 (102 HD)

24V, 5/16" mounting hardware with 6' cable

Replacement Actuators are packaged with Deutsch connectors and all stainless steel mounting hardware. The entire Actuator is fully submersible, maintenance-free and sealed for life with a 5 year warranty.

102 XD Actuator

4-1/4" Stroke (10.795 cm)

15067-001 (102 XD)

Similar to 15060-001 24V, 5/16" mounting hardware with 6' cable & an overall length tip to tip of 13-1/4". (Not shown)

Electric Hatch Lifts 12 & 24 Volt Models

12V and 24V with 2' (61 cm) leads and deutsch connectors. In-line motor design delivers 500 lbs. of force. Includes high impact, corrosion proof mounting brackets and stainless steel pull pins.

Hatch Lift Features

- Clear anodized aluminum tubing
- Sizes 4" (10.1 cm) through 30" (76.2) stroke and available in 12V & 24V
- Complete with 2' (61 cm) lead and Deutsch plug (see actuator extension harnesses on page 42)
- Clutchless ball screw design will not drift, never binds and runs in sync on dual lift applications
- In-line motor design delivers 500 lbs. (226.79 Kg) of force
- Water-resistant and made entirely of non-corrosive materials
- Ball screw spins freely when hatch is fully opened or closed eliminating limit switches and burned out motors
- High impact, corrosion proof mounting brackets with stainless steel pull pins
- Powdered metal gears for strength and precision
- Stainless steel ram locks in any position
- CE-certified, ignition protected and ABYC compliant

ATTENTION 20A circuit breaker & 20A rated switch required.

Optional Hatch Lift accessories available

Stainless Steel Non-locking Slide Bracket

For hatch lifts. In case of power failure, this bracket allows you to pull the hatch open a minimum of 5" (12.7 cm) in order to remove bolt for access.

70381-001

Stainless Steel Pull Pin

Clamshell packaged
60101-001D

Hatch Lift Rocker Switch (Single)

12 & 24 Volt | Single Hatch Lift Application

Rocker Switch for hatch lifts with two 30" non-terminated power leads. This switch is CE certified and ABYC compliant. It is also 20A rated and clam shell packaged.

15096-001

Hatch Lift Rocker Switch (Dual)

12 & 24 Volt | Dual Hatch Lift Application

Rocker Switch for hatch lifts with two 30" non-terminated power leads. This switch is CE certified and ABYC compliant. It is also 20A rated and clam shell packaged.

15098-001

Lenco Electric Hatch Lifts

L.O.A. = Length overall, measuring from top bracket to bottom bracket

BENNETT HYDRAULIC-TO-LENCO ELECTRIC

CONVERSION & PERFORMANCE UPGRADE KIT

No more replacing unreliable hydraulic pump units

- ▶ Upgrade to our instant response electric actuators
- ▶ Improved boat performance
- ▶ Eliminate messy hydraulic pump unit
- ▶ Use your existing Bennett trim blades
- ▶ No new holes to drill
- ▶ Retrofits other hydraulic systems with minor modifications

Use existing Bennett trim blades and hinges

Now you don't have to buy a new boat or an entire new set of trim tabs to get all the advantages of the latest in trim tab technology. Lenco's high-performance instant response actuators are now available to retro fit any boat equipped with the standard length Bennett hydraulic cylinders.

This simple Conversion & Performance Upgrade Kit includes everything necessary to upgrade your current boat without any drilling or filling of holes. You simply discard the hydraulic pump unit and the two Bennett cylinders. Lenco's new upper mounting brackets fit the existing Bennett mounting holes on the transom. Install the two Lenco electric actuators on your existing Bennett trim blades using the existing lower actuator brackets. Connect our actuator wiring to the existing harness. Jumper wires are included for attaching to current Bennett rocker switch or you may also complement your upgrade kit by adding any Lenco switch kit including the Auto Glide system.

Universal Actuator Mounting Bracket Replacement Kit (for 1 Actuator)

Includes all stainless steel hardware and Delrin pin. Clamshell packaged.
15099-001

Part #	Description
15085-001	Upper Mounting Bracket w/ Gland Seal
50015-001	Upper Mounting Bracket w/ Gland Seal
50014-001	Lower Mounting Bracket

120 Lower Mounting Bracket Kit For XD and XDS Actuators

Used in conjunction with new XD and XDS Actuator applications. Includes all stainless steel hardware. Clamshell packaged.
15140-001

Upper Mounting Bracket With Gland Seal

Crastin (3 screw holes, 1 wire hole) 2008 through Current - New Style. Clam shell packaged
15085-001

Standard Upper Mounting Bracket With Gland Seal

Crastin (3 screw holes, 1 wire hole) Previous through 2007 - Old Style. Clam shell packaged
50015-001D

7 Degree Mounting Shim

For Upper & Lower Mounting Bracket - Crastin
Clam shell packaged - Only compatible with
50014-001D and 50015-001D
50015-002D

Standard Lower Mounting Bracket

Crastin (3 screw holes) Clam shell packaged
50014-001D

Compact Upper Bracket

Crastin (2 screw holes, 1 wire hole)
To be used in applications with
limited space - Clam shell packaged
50225-001D

Hinge & Upper Bracket Mounting Screws

44 replacement screws - Clam shell packaged
10030-001D

Standard Actuator Hardware Kit

Used in conjunction with Lenco 101 & 102 Standard Actuators. Includes all stainless steel hardware and Delrin pins. Clamshell packaged.
10250-401D

Remote Gland Seal Kit

Used as an alternative method by routing the actuator wires through the transom above or below the waterline. Contents: (2) mounts, (2) gland seals and (6) mounting screws. Clam shell packaged.
15084-001

3 3/4" (9.5 cm) Sacrificial Anode

Zinc Sacrificial Anode w/mounting screw.
Pack of 2. Clamshell packaged.
15093-001

1 7/8" (4.8 cm) Sacrificial Anode

Zinc Sacrificial Anode w/mounting screw.
Pack of 2. Clamshell packaged.
15092-001

Deutsch Plug Kit (Pack of 5)

Actuator and Actuator Extension Harness Deutsch Plug Kit. Includes 5 plugs and 5 wedges. Clam shell packaged.
15107-001

Deutsch Receptacle Kit (Pack of 5)

Actuator Extension Harness Deutsch Receptacle Kit. Includes 5 receptacles and 5 wedges. Clam shell packaged.
15107-002

Deutsch Plug Electrical Repair Kit

Includes 16 pieces total (plugs, receptacles and wedges) **Pins not included.**
Clam shell packaged.
15086-001

Replacement Hardware for your Lenco Actuator

Universal Actuator Replacement Hardware Kit

Contents will replace all hardware on any (1) Lenco electric actuator.
Clam shell packaged.
10250-410D

Retail Clamshell

**Replacement Hatch Lift Pull Pin**

Used in conjunction w/ all Lenco 12 & 24 Volt Hatch Lifts. Clamshell packaged.
60101-001D

**Delrin Mounting Pin (2 pack)**

For 101 & 102 Actuators (1.5") Pack of 2
15087-001

Delrin Mounting Pin (10 pack)

For 101 & 102 Actuators (1.5")
Dealer pack of 10
15087-002

**36" Power Pigtail**

36" Pigtail for 124SSR, 123SC & 122 (14-AWG wires w/ DTP Plug) Clam Shell Packaged.
30140-001D

72" Power Pigtail

72" Pigtail for 124SSR, 123SC & 122 (10-AWG Wires w/ DTP Plug) Clam Shell Packaged.
30140-202D

**72" Power Pigtail**

Pigtail for 123DRSCCB Dual Ram Control Box (10-AWG Wires w/ DTHD Plug) Box Packaged.
10249-001

**Replacement Flybridge Second Station Key Pad Extension Harnesses**

For extending the distance between the Key Pad and the control box when the measurement exceeds 34" (86.4 cm)

Part #	Description
30097-001	10' Key Pad Extension Harness - Overmolded Connector
30097-002	20' Key Pad Extension Harness - Overmolded Connector
30097-003	30' Key Pad Extension Harness - Overmolded Connector
30097-004	40' Key Pad Extension Harness - Overmolded Connector
30097-005	50' Key Pad Extension Harness - Overmolded Connector

**Replacement Y Connector Harness Only**

Used in conjunction with our Flybridge LED Indicator Kits. Clamshell packaged.
30209-001D

HD Heavy-Duty Actuator

The Lenco HD Heavy-Duty Actuator is designed to push twice the weight as its 101 and 102 actuator predecessors. It is intended to be used in conjunction with multiple Lenco trim tab systems. Boat lengths up to 80'.

15158-001

**Features include**

- 1000 lbs push
- Highly durable Polyphthalamide housing
- Larger high torque motor
- Dual gear train parallel configuration
- 3/8" upper and lower mounting capability
- About a 1/2 inch longer than 102 XD
- 14 AWG gauge wire with Deutsch connectors
- Compatible with present switches

Part #	Description
15158-001	Kit, HD Actuator, 2-1/4" stroke, 6' cable, 12V
15160-001	Kit, HD Actuator, 4-1/4" stroke, 6' cable, 12V
