

COMMANDER THERMAL

The Steiner Commander has always been a guarantee of ultimate safety and support at sea; the new **COMMANDER THERMAL** will not only meet but also further elevate this standard.

Today, we promise you outstanding observation performance as always, along with technological innovation and reliability.

QUANTUM VISION™

With its advanced **Quantum Vision technology**, we guarantee outstanding image quality you can rely on. The Commander Thermal device from Steiner offers the perfect equipment for all water sports enthusiasts providing them with **safety and precise navigation** on the water as well as the most demanding challenges. It provides essential support when navigating during the day or in complete darkness. It also ensures clear visibility of lighted and unlighted buoys, floating objects, other boats and harbor entrances.

USER-FRIENDLY

- Simple user interface
- Comfortable to wear due to the hand strap
- Easy to reach On/Off button
- Interchangeable battery
- Smart design and lightweight

RUGGED

- Legendary Steiner Makrolon housing
- Ultimate performance in extreme conditions
- Functional carrier bag
- Tested for the toughest use
- Extremely resilient

COMMANDER THERMAL

Perfection by Quantum Vision™

The Commander Thermal delivers ultra-sharp thermal images for unmatched safety at sea - even in total darkness, rain or fog - a real must-have companion.
